

Synnefo - Bug # 1055

Status:	Closed	Priority:	High
Author:	Vangelis Koukis	Category:	Cyclades API
Created:	09/07/2011	Assignee:	Giorgos Verigakis
Updated:	09/15/2011	Due date:	
Subject:	Flavors cannot be removed from circulation		
Description	<p>There's no way to stop usage of a Flavor in the API, once it's in the DB.</p> <p>There should be some way (a public flag? a deleted flag?) to mark a Flavor as not used.</p> <p>The admin can't just remove the instance of the Flavor model, because this will lead to the deletion of all corresponding instances of VirtualMachine.</p> <p>The API should honour this flag and not include the relevant flavors in GET /flavors responses.</p>

Revision 2c60cbef - 09/14/2011 12:13 pm - Giorgos Verigakis

Add deleted states in Flavor and SynnefoUser

A database migration is needed.

Refs #1055

Revision 870c24a0 - 09/14/2011 01:00 pm - Giorgos Verigakis

Admin improvements

- Flavors use the deleted flag instead of deleting the object.
- SynnefoUsers use the DELETED state instead of deleting the object.
- Object lists do not show deleted objects.

- Category changed from Cyclades UI to Cyclades API

#2 - 09/09/2011 03:08 pm - Giorgos Verigakis

Perhaps such a flag should be added to SynnefoUser too then?

Image, VirtualMachine and Network already have such a flag (or a DELETED state). Then we could only delete objects if their deleted flag is True and there are no dependencies.

#3 - 09/15/2011 04:16 pm - Vangelis Koukis

- *Status changed from Assigned to Closed*

- *Target version changed from v0.7 to v0.6.2*

Merged into master, closing.
