

Synnefo - Bug # 1319

Status:	Closed	Priority:	Medium
Author:	Costas Drogos	Category:	Cyclades Images
Created:	09/28/2011	Assignee:	Constantinos Venetsanopoulos
Updated:	10/11/2011	Due date:	
Subject:	snf-ganeti-instance-image package dependency missing		
Description			
<p>Hello,</p> <p>snf-ganeti-instance-image misses dependency on ntfsprogs, which is needed for ntfsclone and friends on Debian Squeeze. Please add it to the dependency list for further deployments.</p> <p>Thanks Costas Drogos</p>			

History

#1 - 09/28/2011 01:29 pm - Constantinos Venetsanopoulos

- Status changed from New to Resolved

There has been a long previous conversation about this matter. ntfsprogs is needed in Squeeze but in next versions ntfsclone and friends are included in ntfs-3g.

Anyway this shouldn't be a problem any more, because a new OS Provider is being written from scratch that will replace snf-ganeti-instance-image. The new provider doesn't use ntfsclone at all, so there will be no need for the dependency either.

The new OS Provider will be included in the next version of Synnefo.

#2 - 10/11/2011 03:56 pm - Vangelis Koukis

- Category set to Cyclades Images

- Status changed from Resolved to Closed

- Target version set to v0.7

Fixed in snf-image packages, closing ticket.
