Pithos MS Client - Bug # 1653

Status:	Closed	**Priority:**	High
Author:	Panagiotis Kanavos	**Category:**	Deployment
Created:	11/15/2011	**Assignee:**	Panagiotis Kanavos
Updated:	11/16/2011	**Due date:**	
Subject:	SQLite driver for NHibernate error in XP 32 deployment		

Description

The error is:

Could not create the driver from NHibernate.Driver.SQLite20Driver

Possible reasons

- The program can't find the NHibernate.dll, although it is located in the same folder as the exe
- The packaged SQLite version is not the same as the version used during compilation.

Need to activate Fusion logging in the XP machine to see what actually happens.

- Status changed from New to Closed

SQLite requires MS Visual C++ Runtime v.10 in both x64 and x86 packages. The dependency was not detected by VS2010 when the SQLite driver was added. Adding the MSVC100_CRT.msm merge module fixed this
