

Synnefo - Bug # 1732

Status:	Feedback	Priority:	Medium
Author:	Antony Chazapis	Category:	Pithos
Created:	12/05/2011	Assignee:	
Updated:	02/08/2013	Due date:	
Subject:	Filename encoding in Content-Disposition headers		
Description	<p>When serving a public object, we include a Content-Disposition header so the file is presented to the end-user with its original name. However, the current encoding scheme does not work with unicode filenames.</p> <p>File:</p> <pre>αρχείο.txt bytes: 0 content_type: text/plain hash: d41d8cd98f00b204e9800998ecf8427e last_modified: 2011-12-05T13:22:58.590020+00:00 x_object_hash: e3b0c44298fc1c149afb4c8996fb92427ae41e4649b934ca495991b7852b855 x_object_modified_by: chazapis x_object_public: /public/geef5 x_object_version: 41460 x_object_version_timestamp: 1323091378.590020</pre> <p>Is downloaded as: %CE%B1%CF%81%CF%87%CE%B5%CE%B9%CE%BF.txt</p>		

History

#1 - 12/05/2011 06:13 pm - Antony Chazapis

- Assignee set to Antony Chazapis
- Target version set to 0.8.1

#2 - 12/05/2011 07:53 pm - Antony Chazapis

- Target version changed from 0.8.1 to 1.0.0

This is not a simple issue: <http://greenbytes.de/tech/tc2231/>

Will investigate further - we need a browser compatibility test.

#3 - 01/24/2012 05:41 pm - Antony Chazapis

- Assignee deleted (Antony Chazapis)
- Target version deleted (1.0.0)

#4 - 04/13/2012 09:38 am - Antony Chazapis

- Status changed from New to Feedback
- Target version set to 1.0.0

#5 - 02/08/2013 06:50 pm - Vangelis Koukis

- Project changed from Pithos to Synnefo
- Target version deleted (1.0.0)

#6 - 02/08/2013 06:52 pm - Vangelis Koukis

- Category set to Pithos
