Synnefo - Feature # 1748

Status:	Closed	**Priority:**	High
Author:	Vangelis Koukis	**Category:**	Cyclades UI
Created:	12/06/2011	**Assignee:**	Kostas Papadimitriou
Updated:	02/02/2012	**Due date:**	12/13/2011
Subject:	Support Glance API calls in the UI to retrieve list of images		

Description

Extend the UI to perform Glance API calls to Plankton to retrieve list of images. Filter images based on distinct criteria into the following categories:
System, Mine, Shared to me, Public.

Use Plankton-provided Image IDs in POST /servers calls to Synnefo.

Make this a **configurable** feature: At deployment-time, allow falling back to GET /images for retrieving available Image IDs.
