Synnefo - Feature # 1848

Status:	Assigned	**Priority:**	High
Author:	Vangelis Koukis	**Category:**	Admin
Created:	01/16/2012	**Assignee:**	Giorgos Verigakis
Updated:	01/16/2012	**Due date:**	
Subject:	Make the location of all static files a configurable setting		

Description

Make all references to static files relative to a configurable setting, to enable the admin to place them at any URL and serve them independently.

Please see if other Django apps apart from admin/ need to be modified accordingly.

History

#1 - 01/16/2012 01:41 pm - Giorgos Verigakis

Should this setting be global or per app? If global where should existing static files (e.g. admin/static/*) be moved in the repository?
