

Synnefo - Feature # 2070

Status:	Closed	Priority:	Medium
Author:	Antony Chazapis	Category:	Pithos
Created:	02/20/2012	Assignee:	Antony Chazapis
Updated:	02/08/2013	Due date:	
Subject:	Move authentication middleware to library		
Description			
The current authentication middleware (the one that connects to Astakos to check the token and retrieve user info), should be applied only to API calls. As such, the code is better suited to a library module than a django middleware which affects all requests.
