

Synnefo - Bug # 2737

Status:	Closed	Priority:	Medium
Author:	Nikola Garafolic	Category:	Pithos
Created:	07/25/2012	Assignee:	
Updated:	02/08/2013	Due date:	
Subject:	gunicorn workers not working		
Description	<p>Following pithos+ guide http://docs.dev.grnet.gr/pithos/latest/adminguide.html#gunicorn-setup</p> <p>I am stuck with gunicorn and failing workers...</p> <p>I see output "django project not found" - what did I do wrong? Tell me what outputs or info you need for this problem.</p> <p>Thanks in advance!</p> <p>gunicorn/synnefo.log output:</p> <pre>2012-07-25 08:28:03 [2206] [INFO] Starting gunicorn 0.14.5 2012-07-25 08:28:03 [2206] [DEBUG] Arbiter booted 2012-07-25 08:28:03 [2206] [INFO] Listening at: http://127.0.0.1:8080 (2206) 2012-07-25 08:28:03 [2206] [INFO] Using worker: sync 2012-07-25 08:28:03 [2214] [INFO] Booting worker with pid: 2214 2012-07-25 08:28:03 [2213] [INFO] Booting worker with pid: 2213 2012-07-25 08:28:03 [2213] [DEBUG] Exception in worker process: Traceback (most recent call last): File "/usr/lib/pymodules/python2.6/gunicorn/arbiter.py", line 459, in spawn_worker worker.init_process() File "/usr/lib/pymodules/python2.6/gunicorn/workers/base.py", line 99, in init_process self.wsgi = self.app.wsgi() File "/usr/lib/pymodules/python2.6/gunicorn/app/base.py", line 101, in wsgi self.callable = self.load() File "/usr/lib/pymodules/python2.6/gunicorn/app/djangoapp.py", line 87, in load make_default_env(self.cfg) File "/usr/lib/pymodules/python2.6/gunicorn/app/djangoapp.py", line 53, in make_default_env raise RuntimeError("django project not found") RuntimeError: django project not found 2012-07-25 08:28:03 [2213] [INFO] Worker exiting (pid: 2213) 2012-07-25 08:28:03 [2216] [INFO] Booting worker with pid: 2216 2012-07-25 08:28:03 [2216] [DEBUG] Exception in worker process: Traceback (most recent call last): File "/usr/lib/pymodules/python2.6/gunicorn/arbiter.py", line 459, in spawn_worker worker.init_process() File "/usr/lib/pymodules/python2.6/gunicorn/workers/base.py", line 99, in init_process self.wsgi = self.app.wsgi() File "/usr/lib/pymodules/python2.6/gunicorn/app/base.py", line 101, in wsgi self.callable = self.load() File "/usr/lib/pymodules/python2.6/gunicorn/app/djangoapp.py", line 87, in load make_default_env(self.cfg) File "/usr/lib/pymodules/python2.6/gunicorn/app/djangoapp.py", line 53, in make_default_env raise RuntimeError("django project not found") RuntimeError: django project not found</pre>

Seems to work now thanks to updated documentation. You can close this one.

Regards,

Nikola
