

Synnefo - Bug # 3170

| | | | |
|---|---------------------------------|------------------|--------|
| Status: | New | Priority: | Medium |
| Author: | Nikola Garafolic | Category: | Pithos |
| Created: | 01/08/2013 | Assignee: | |
| Updated: | 02/08/2013 | Due date: | |
| Subject: | /ui/ and pithos+ not accessible | | |
| Description | | | |
| <p>Following this information http://docs.dev.gnet.gr/synnefo/latest/quick-install-admin-guide.html I cannot get pithos+ to work. I can register user and make him active, login, but only user profile shows and I cannot access pithos+ interface. No error shows, /im/profile is shown the whole time. How can I debug, what can I try? All configuration files seem to be fine according to the guide.</p> <p>Regards, Nikola</p> | | | |

History

#1 - 01/09/2013 05:03 pm - Nikola Garafolic

Starting from scratch on freshly installed host, seems to work now. Ticket can be closed!

Regards,
Nikola

#2 - 02/08/2013 03:57 pm - Vangelis Koukis

- Project changed from Pithos to Synnefo

#3 - 02/08/2013 06:37 pm - Vangelis Koukis

- Category set to Pithos
