

Synnefo - Feature # 3361

Status:	Assigned	Priority:	Medium
Author:	Vangelis Koukis	Category:	deployment
Created:	03/03/2013	Assignee:	Constantinos Venetsanopoulos
Updated:	03/03/2013	Due date:	

Subject: ~okeanos-neutral branding for Synnefo

Description

Refactor all settings, Synnefo strings, and icons to be ~okeanos-neutral.

Synnefo is distinct from the ~okeanos service, and should not have ~okeanos-branded files.

Also remove **all** ~okeanos-specific defaults, to ensure the admin guide references all necessary settings for running in production.

Please enhance this description for Synnefo to become ~okeanos-neutral.

Examples:

- logos
- icons
- values for default settings
- ~okeanos-specific messages (templates?)
- mail bodies
