

Pithos Web Client - Feature # 3592

Status:	Closed	Priority:	High
Author:	Constantinos Venetsanopoulos	Category:	
Created:	04/15/2013	Assignee:	Christos KK Loverdos
Updated:	04/18/2013	Due date:	
Subject:	Do not create Group on the File sharing overlay		
Description			
<p>We do not want to create new groups through the File sharing overlay, because it is very frustrating from a user-experience point of view. The "Add group" button should just open an overlay that shows the available groups. If there are no available groups, the button is deactivated with a corresponding message that no groups exist.</p> <p>If a user wants to create and add a group, he/she should first go back to the "Create Group" button, create the group, add users in it and then open the File sharing overlay again.</p>
