./kamaki - Feature # 4596

Status:	Resolved	**Priority:**	Medium
Author:	Stavros Sachtouris	**Category:**	kamaki
Created:	11/14/2013	**Assignee:**	Stavros Sachtouris
Updated:	11/18/2013	**Due date:**	11/18/2013
Subject:	Wrap argumentparser to allow required yet non-positional arguments		

Description

python argument parser thinks of non-positional arguments as optional.

In order to create required non-positional arguments, kamaki has to
take advance of the already implemented argument parser wrapping. It
should be modified so that it will offer what kamaki needs:

(a) "at least one of these" (OR) non-positional required arguments (e.g. in "modify" commands)
(b) "all of these" (AND) non-positional required arguments (e.g. in "create" commands)

This affects mostly the help messages and the error handling mechanisms of kamaki
