Synnefo - Bug # 4776

Status:	Resolved	**Priority:**	High
Author:	Sofia Papagiannaki	**Category:**	Astakos
Created:	12/18/2013	**Assignee:**	Sofia Papagiannaki
Updated:	01/09/2014	**Due date:**	
Subject:	View failure for objects under directory		
Description			

View fails with "Mismatching redirect uri"

Associated revisions

Revision 698016f7 - 12/18/2013 05:24 pm - Sofia Papagiannaki

astakos: Fix view requests for objects whose name contains /

Astakos erroneously made assumptions about the requested redirect_uri format.

This is not anyway desirable and it was also responsible for view failures

under certain circumstances.

This fix implements a clearer check for the requested redirect_uri without

any assumption about the redirect_uri format.

History

#1 - 12/18/2013 02:39 pm - Sofia Papagiannaki

- Category changed from Pithos to Astakos

Request for /<pithos prefix>/ui/view/<account>/<container>/<object>

fail with "Mismatching redirect uri"

if the <object> contains /

(the object is under a application/directory or application/folder object)

Astakos fails to parse correctly the requested URI

and hence it considers erroneously that the URI mismatches with the registered redirect urls for the client.

Request --> Requests

> *fail with "Mismatching redirect uri"*
> *if the <object> contains /*

(the object is under a application/directory or application/folder object)

Astakos fails to parse correctly the requested URI

and hence it considers erroneously that the URI mismatches with the registered redirect urls for the client.
