<b>Subject:</b>	Handling of Images in state=DELETED, sorting and categorization of Images in the UI		
<b>Description</b>	<p>As new Images get registered and deleted in the Synnefo DB, the UI they will start to show up in random order in the UI.</p> <p>UI issues are best dealt with using Image metadata.</p> <p>The purpose of this ticket is to explore the possibility of UI-specific metadata keys (e.g., "sortorder", "category") which will determine placement of Images in specific order and/or in specific groups (e.g. "Debian images", "Server Images", "desktop Images", etc).</p>

### Associated revisions

#### Revision 28e44bd3 - 09/14/2011 06:27 pm - Kostas Papadimitriou

Fix vm image params update, Refs #823

Proper image params update for vm images in DELETED state

#### Revision 0d12d452 - 09/14/2011 06:51 pm - Kostas Papadimitriou

Allow image sorting in vm creation view, Refs #823

Based on `sortorder` image metadata key value

### History

#### #1 - 09/14/2011 06:00 pm - Vangelis Koukis

- Subject changed from *Sorting and categorization of Images in the UI* to *Handling of Images in state=DELETED, sorting and categorization of Images in the UI*

- Priority changed from *Low* to *High*

- Target version changed from *v0.7* to *v0.6.2*

Assigning with higher priority.

Having images in state=DELETED makes the UI barf.

The UI should handle having VMs for which the corresponding imageRef is in state=DELETED gracefully.

Also, please consider implementing a sortkey metadata attribute, which will allow setting the Images in an arbitrary order in the UI.

#### #2 - 09/15/2011 02:00 pm - Vangelis Koukis

- Status changed from *Assigned* to *Closed*

Merged into master, closing.
